The WJC JDCorps is conducting an ongoing global public diplomacy campaign to raise awareness about the dangers posed by the Iranian regime, including its support for global terrorism, genocidal threats against Israel, antisemitism, Holocaust denial, and human rights abuses against its own population.

JDCorps members are continuously holding meetings with targeted embassies across the globe. They are also sending diplomatic letters to embassies worldwide to raise awareness of the Iranian threat and continuously drafting scripts and texts for videos and images published on WJC social media.

As part of the campaign, the JDCorps is advocating for the US to keep Iran’s Islamic Revolutionary Guard Corps (IRGC) designated as a terrorist organization, especially with ongoing discussions about the Iran, and encouraging other countries to follow suit. The campaign is ever-changing and evolving to meet the current challenges posed by the Iranian regime.
