

Message of Togo against anti-Semitism

The legacy of prejudices toward Jewish people that causes anti-Semitism, itself, fueled by hatred and discrimination, remains a heartbreaking reality throughout the world and unfortunately tends to downplay the increasingly virulent rise of anti-Semitism violences.

Let us remain firmly committed and come together in the prevention of racism in all its forms, including anti-Semitism which can never be an opinion, or the manifestation of any form of freedom expression. It is a shame, the decadence of those who advocate for it. It is just a crime that must be fought with determination and an unequivocal will.

Franck Kokou KPAYEDO
Ambassador, Permanent Representative of Togo
to the United Nations in New York
