Executive Summary

The current outbreak of violence between Israel and Hamas has led to a dramatic surge in antisemitism. Anti-Israel demonstrators have targeted synagogues and Jewish community centers, equating Jews generally with the Israeli military and seeking to blame Jews around the world for the latest Middle East violence. Simultaneously, there has been a surge of virulently antisemitic hate speech across social media. Posts on major platforms including Facebook, Twitter, and Instagram, feature Holocaust imagery, conspiracy myths, and Nazi glorification. Many of these contain evocations such as “Hitler was right.”

This report provides an overview of some of the most blatant of such antisemitic phenomena. It should be noted that the listed examples are representative of a far greater volume of online hate speech, much of it glorifying and praising the Nazi German genocide of European Jewry during the Holocaust.
Social Media

One of the consequences of the outbreak of violence between Israel and Hamas has been a dramatic surge in virulently antisemitic online hate speech directed at Jews generally. Many social media posts between 10 and 19 May 2021 on major platforms such as Facebook, Instagram and Twitter feature Holocaust imagery and Nazi glorification, in particular evocations such as “Hitler was right.”

Antisemitic Incidents

During the May 2021 Israel-Hamas conflict, Jewish communities and religious institutions world-wide have been targeted in what has become an antisemitic campaign that equates Jews generally with the Israeli military and seeks to blame Jews around the world for the latest Middle East violence.

Below is a list of examples of incidents that occurred over the course of the last week.

**10 May 2021**

1. **EU, Germany:** Synagogue and Holocaust memorial in Düsseldorf vandalized.¹
